Modules

Web Development **A-** Visual Design for Digital Media **A-** Programming **A** Human Computer Interaction **A-** Professional and Study Skills **A** Portfolio Project **A-** Digital Technologies **B+**

Predicted grade: 2:1

WORK EXPERIENCE

MICROS E-COMMERCE (2013 – Present)

Through playing a key role in a busy front end development team I developed a strong set of skills in using HTML, CSS and programs as well as GIT. I have studied and developed new frameworks as well as fine tuning my code for users to find easier to read and making it more accessible. Other day to day tasks include the updating of websites, fixing bugs and creating demos. Also been able to attend conference and meet other people in the industry, such as London JS, Front End London and London Web Standards.

Sainsbury's Horsham, Checkout Assistant (2010 – 2013)

Exercising excellent team-working and communication skills in a busy environment. Guaranteeing store targets were met in both my own section and throughout the store. Adopted a high-quality sales manner and communicating well with staff and customers.

VOLUNTEERING

Student mentor, St Francis Primary School (2010)

I visited a local primary school regularly to offer help and guidance to the reading and numeracy skills of the students.

Summer Volunteering at Reading Quest at Crawley Library (2011)

I volunteered for two days a week out of my summer holidays to help support my local library and to inspire children to read again. My duties included asking questions about their book and listening to them read.

SKILLS

HTML - CSS - SASS/LESS - JAVASCRIPT - PHP - AJAX - GIT - FRAMEWORKS

INTERESTS

Theatre

I really enjoy going to the West End to see the latest musicals. I think that the atmosphere, storylines and live music is what appeals to me.

Athletics

Having trained with the West Sussex athletics group from a young age, I still enjoy athletics for recreational enjoyment and a way to keep fit.
